

# What is the only 1 MANTRA for Success?

Get outta here!

Why?

The question itself comes from a place of pure laziness.

If you are searching for that “1 secret trick” that is going to make you pursue what you want.

Let the truth be HARSH!

**“You are doomed, and you are going to lose a ton of time if you don’t take this email seriously.”**

The Cold Hard truth is that there is no “ONE THING” with anything in life.

Multiple things need to be honed, consistently over a long period of time.

Meaning Years. Decades even...

And that too without immediate results.

I know, it's not easy.

It can be a little bit intimidating to think about. But at least it's the truth.

Do you want to know what the beautiful part is? (Within this Harsh truth!)

Most guys are going to cower away from hardships and challenges.

Which means, YOU,

Yeah, exactly YOU, can be one of the few men who step up to the plate, make consistent changes to themselves.

Day after Day, Year after Year....

None can stop you from becoming the most successful man on the planet Earth.

Financially, Physically, Intellectual and even Spiritually.

And I hope to see you become one of those few men.

Become Financially Abundant,

Jimmy Flank.

PS: Success is like hidden treasure which “Reveals Itself” only after prolonged efforts leaving us in Awe.

It is like “Overnight Success” and then People ponder “Where was it all those years.”
